## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Claim 1, line 1 reads:

"A display device for displaying information, comprising a plurality of display"

which is changed to read

—<u>An electrophoretic</u> display device for displaying information, comprising a plurality of display—

Also, the abstract of the disclosure does not commence on a separate sheet in accordance with 37 CFR 1.52(b)(4). A new abstract of the disclosure is required and must be presented on a separate sheet, apart from any other text and must be titled "Abstract". See the following page:

Application/Control Number: 10/531,613

Art Unit: 2629

#### **Abstract**

The invention relates to a display device for displaying information comprising a plurality of display elements with an electrophoretic medium, a first electrode (6), a second electrode (6') and a third electrode (7) associated with each display element for receiving a drive signal, and control means for supplying, in correspondence with the information to be displayed, the drive signal to the electrodes for realizing intermediate optical states. In order to omit reset pulses, which cause a temporary blanking of the display device, the electrophoretic medium of the display device comprises two groups of electrophoretic particles, one group of positively charged electrophoretic particles (14) and one group of negatively charged particles (14') and the color of the electrophoretic particles of the first group is equal to the color of the electrophoretic particles of the second group.

## Allowable Subject Matter

2. Claims 1-9 are allowed.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Examiner cites the following references as pertinent to the disclosure due to their relevance with electrophoretic display devices.

Bastiaens et al. U.S. Patent 6,462,859

Jacobson et al. U.S. Patent 6,538,801

lkeda et al. U.S. Patent 6,741,385

Matsuda et al. U.S. Patent 6,822,783

Liu USPGPUB 2005/0012707

The following is an examiner's statement of reasons for allowance: As to Claim 1, the above cited references have failed to teach: "one group of positively charged electrophoretic particles and one group of negatively charged particles and the color of the electrophoretic particles of the first group being equal to the color of the electrophoretic particles of the second group".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/531,613

Art Unit: 2629

# Inquiries

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney Amadiz whose telephone number is (571) 272-7762. The examiner can normally be reached on M-F 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sumati Lefkowitz can be reached on (571) 272-3638. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
